Re: I will like to support2.3 Proposed definition of PSB in the Bahamas.

I support.....206 Public Grant should be \$6 Million for 2011/12 and commercial market should be off limit from ZNS. ZNS should lease its building space and tower space at Harold Pond and South Beach to local private trunking and media sectors to make up for revenue losses as result of getting out of the commercial market. I will submit further notes before expected deadline.

Thank you

George Harris
