Introduction

- 1.1 Under Part XVI of the Communications Act, 2009 (“Comms Act”), which came into force on 1 September 2009, URCA has the power and duty to charge and collect fees from licensees in the Electronic Communications Sector (ECS) on behalf of the Government of The Bahamas and to cover URCA’s annual budgeted costs of performing URCA’s functions and exercising its powers under the Comms Act.
- 1.2 Under Part X Electricity Act, 2015 (“EA”), which came into force on 28 January 2016, URCA has the power and duty to charge and collect fees from licensees in the Electricity Sector (ES) in The Bahamas to, inter alia, cover URCA’s annual budgeted costs of performing URCA’s functions and exercising its powers under the EA.
- 1.3 Under Schedule 3 of the Utilities Tribunal Act, 2009 (UAT Act), all Licensees in a regulated sector are required to pay the Tribunal Fee. Once determined by the Registrar of the Tribunal, URCA will publish in its Fee Schedule the level of Tribunal Fee payable by Licensees. As soon as reasonably practicable and in any event within three (3) months after the publication of the Registrar’s estimate in accordance with the Utilities Appeal Tribunal Act, 2009, URCA will invoice and collect the Tribunal Fee from all Licensees in a regulated sector. The Tribunal Fee will be set out in Table 9 of a Revised Fee Schedule published by URCA;
- 1.4 This document now sets out the **fees applicable from 1 January 2023 to 31 December 2023** in the following categories:

Communications Act 2009 (“Comms Act”)

- i. Under Section 92 of the Comms Act, URCA has determined to levy the fees and charges set out in Tables 1 and 2, respectively. (See URCA’s Final Determination on Class Licences, Exemptions and Types of Fees ECS – 24/2009)¹;
- ii. Under section 92(1)(b) of the Comms Act, URCA may levy charges for the supply or making copies of documents. The fee to be payable for the supply or making copies of documents is set out in Table 8;
- iii. Under Section 76 of the Comms Act, URCA can, by regulation, require the payment of a fee for processing merger control applications, making adjudications and if applicable, an order, in the exercise of its merger control functions. A regulation on merger control fees has been published on the URCA website at www.urbahamas.bs;
- iv. Under Section 93 of the Comms Act, URCA will impose charges for radio spectrum.

The Spectrum Fees are set out in Tables 11A, 11B and 11C; and

- v. Under Section 91 of the Comms Act, licensees in the ECS are required to pay a Communications Licence fee to the Government which is billed and collected by URCA. The Communications Licence fee is set out in Table 9.

Electricity Act 2015 (“EA”)

- vi. Under Section 54 of the Electricity Act, URCA has determined to levy the fees and charges set out in Tables 4, 5, and 6, respectively. (See URCA’s Statement of Results and Final Decision on Fees for the Electricity Sector (ES 03/2017)²);
 - vii. Under Section 54(2)(c) of the EA, URCA may levy charges for the supply or making copies of documents. The fee to be payable for the supply or making copies of documents is set out in Table 8; and
 - viii. Under Section 54(2)(e) of the EA URCA may impose fees or charges upon ES licensees for the processing of merger applications under section 57 and related adjudications and orders under section 65 of the EA. These fees are set out in Table 7.
- 1.5 This Fee Schedule will be kept under review and may be revised from time to time.

2. The Annual URCA Fee and other URCA Fees

- 2.1 Under Section 92(2) of the Comms Act and Section 54(2)(a) of the EA, fees levied by URCA must, amongst other things, be proportionate and be published in an appropriate and sufficiently detailed manner, so as to be readily accessible; and be set to cover URCA’s annual budgeted costs of performing URCA’s functions and exercising its powers under the Comms Act, the URCA Act and the EA and to recover any deficit from previous years.
- 2.2 The annual URCA Fee funds the operations of URCA and is charged annually in respect of the forthcoming financial year. URCA’s financial year extends from January 1 to December 31 of each year. URCA publishes its Annual Plan that includes its objectives and targeted activities for the financial year and sets out URCA’s budget based upon its activities and budgeted costs for the year. This is a requirement under Section 41 of the URCA Act and Section 54(3) of the EA.
- 2.3 The annual URCA Fee is calculated based on a Licensee’s relevant turnover. Existing

Licensees will be invoiced for the annual URCA Fee and Licensees must make full payment within thirty (30) calendar days of being invoiced. Late payment of the URCA Fee will attract statutory interest under Section 94 of the Comms Act and Section 54(5) of the EA, respectively, on a daily basis at the lower of a rate of four per centum (4%) per annum over the prime lending rate as published by the Central Bank of The Bahamas; and any maximum applicable rate specified in the Rate of Interest Act.

- 2.4 URCA may exercise its discretion to permit payment arrangements by Licensees in respect of the annual URCA Fee. However, payments by a Licensee made outside the required 30 calendar day period for full payment, as invoiced by URCA, will attract interest at the level stated above. URCA encourages all Licensees to make full payment of the annual URCA Fee as prescribed in the URCA invoice. URCA emphasizes that it must bill and collect the annual URCA Fee in a manner that ensures it has the necessary funding to be able to effectively and efficiently achieve its projected targets and activities for the year and does not discriminate between similarly situated Licensees.
- 2.5 The annual URCA Fee becomes payable before a Licensee commences activities within a regulated sector. This is particularly applicable to a new Licensee that has been issued an Individual Operating Licence or a Class Operating Licence Requiring Registration by URCA under the Comms Act or a Public Electricity Supplier Licence under the EA. Where URCA issues a new Licence, the Licensee will be invoiced for the annual URCA Fee in accordance with this Fee Schedule and will be required to pay this fee within the period as prescribed in the invoice.
- 2.6 URCA may also levy other URCA fees and charges under Section 92(1)(a) and (b) of the Comms Act and Section 54(2)(b), (c), (e) and (f) of the EA for particular services rendered by URCA in the performance of its functions and the exercise of its powers. The URCA fees are payable each time an application is submitted or for the supply or making of copies of documents. All applicants are required to pay the applicable application fee upon submission of an application form in order for URCA to commence processing of the application. Where an applicant fails to pay the requisite application fee, any statutory application processing time stipulated by the relevant Act will not start until such payment has been made.
- 2.7 Where an applicant intends to provide multiple services under a Licence, the application fee will be charged based on the highest fee amount of the services being applied for. For example, URCA will only charge a single application fee of \$5,000 where the applicant has submitted an application for a Licence to provide Pay Television, Fixed or Mobile Voice and Internet Services.
- 2.8 The fees detailed in Tables 1 and 4 below are set to cover URCA's application processing and administrative costs, respectively. The costs for the supply or making copies of URCA

documents are set out in Table 8.³

- 2.9 **The fees detailed in Tables 2 and 6 below are the annual URCA Fees for the financial year 1 January 2023 to 31 December 2023 applicable to licensees in the ECS and ES respectively**, and have been set to cover URCA’s annual budgeted costs for performing its functions under the Comms Act, the URCA Act (applicable to the ECS) and the Electricity Act (applicable to the ES) for this period, as set out in URCA’s 2023 Draft Annual Plan published on 21 December 2022.
- 2.10 The assessed URCA fee for the 2023 financial year for the ECS has increased by 15.5% due to renewed focus planned for staff initiatives and new hires, participating in regional and international fora, travels for monitoring activities and continuation of regulatory projects. The URCA fee for the ES has increased 36.4% primarily due to the commencement of work for major regulatory framework related and monitoring activities for the ES.

3. Communications Licence Fee

- 3.1 A Comms Act Licensee who is required to pay the URCA Annual Fee must also pay the Communications Licence Fee (“Comms Fee”). This fee becomes payable before a Licensee commences its licensed activities under the Comms Act. The Comms Fee is a statutory fee imposed under Schedule 8 of the Comms Act at 3% of the Licensee’s relevant turnover. This amount may only be changed by an amendment to the Comms Act.
- 3.2 In each subsequent year, the Comms Fee must be paid to URCA by a Licensee on or before April 30 of each year. Under the Comms Act, URCA shall act on behalf of the Government to administer the billing and collection of the Comms Fee and must account to the Treasury of The Bahamas on or before June 30 of each year for all Comms Fees it collects. The Licensee is encouraged to pay the Comms Fee as soon as possible after receiving an invoice from URCA but must make full payment no later than April 30 of each year.
- 3.3 Late payment of the Comms Fee will attract statutory interest under Section 94 of the Comms Act daily at the lower of a rate of four per centum (4%) over the prime lending rate as published by the Central Bank of The Bahamas, and any maximum applicable rate specified in the Rate of Interest Act.
- 3.4 As the Comms Fee is a “pass-through” fee payable to the Government of The Bahamas and only billed and collected by URCA, **URCA has no discretion to enter payment arrangements for this fee** with a Licensee unless on the express written authorization from the Minister of Finance or a duly authorized officer acting on behalf of the said Minister (e.g. the Financial Secretary).
- 3.5 The fee detailed in Table 9 below is the Comms Fee for which URCA will invoice a Licensee annually until the prescribed level of the fee has been changed by an amendment to the Comms Act.

4. The Tribunal Fee

- 4.1 Licensees in a regulated sector are required to pay the Tribunal Fee. The Registrar for the Tribunal has determined its annual budget, pursuant to Schedule 3 of the UAT Act, and has published the said budget on 30 December 2022, setting out the relevant expenditure for the Tribunal. Pursuant to Schedule 3 of the UAT Act, as soon as reasonably practicable and in any event within three (3) months after the publication of the Registrar’s estimate in accordance with the UAT Act, URCA is required to invoice and collect the Tribunal Fee from Licensees or regulated persons in the regulated sectors. URCA has no authority to determine the Tribunal fee because the determination of the UAT’s budget falls under the authority of the Utility Appeals Tribunal.
- 4.2 Upon publication of the UAT’s Budget, URCA has apportioned the budget between the ECS and the ES, using the same proportions applied by URCA in apportioning its own budget, and to that end has billed and will collect from ECS and ES licensees the sum of the published budget by the Registrar. The fees are charged to licensees liable to pay the annual URCA Fee, using the same methodology used to devise the annual URCA Fee that is, based on the relevant turnover of those licensees.
- 4.3 The Tribunal Fee which has been determined and detailed in Table 10, has been set to cover the UAT’s annual budgeted costs for performing its functions, as set out in UAT’s budgetary estimates. The Tribunal Fee for the specified period is applicable to licensees in the ECS and ES.

5. Spectrum Fee

- 5.1 All Licensees that have been allocated or use radio spectrum under a spectrum licence issued by URCA are required to pay the Spectrum Fee. The Spectrum Fee must be paid to URCA on behalf of the Government before the Licensee commences activities under its licence and in each subsequent year. URCA acts on behalf of the Government to administer the billing and collection of the Spectrum Fee and will invoice Licensees for the Spectrum Fee in accordance with this Fee Schedule, as revised from time to time.
- 5.2 Under the Comms Act, the Minister with responsibility for the Electronic Communications Sector (the Minister) may set the level of spectrum fees in the Premium Spectrum bands and URCA will impose charges for spectrum in the Standard Spectrum bands.
- 5.3 URCA will notify the Minister in writing of all applications for Premium Spectrum and will submit its recommendation for any proposed premium spectrum fees and/or a formula for calculating the same. URCA's recommendation will be made pursuant to URCA's "Review of Radio Frequency Spectrum Pricing Statement of Results and Final Decision – ECS 01/2016"¹⁵. Notwithstanding URCA's recommendation, the Minister has sole discretion in determining Premium Spectrum fees and the pricing for premium spectrum, as set out in the ECS 01/2016 document, are subject to ministerial decision and may be

revised or amended by the Minister. The timeline for the Minister’s decision is beyond URCA’s control.

- 5.4 The level of standard spectrum fees is set out in Tables 11A and 11B below. The fees detailed are with the exception of spectrum listed for Cellular Mobile Services, calculated and charged on a “per island” basis until revised by URCA. The Minister has determined the spectrum listed for Cellular Mobile Services to be Premium Spectrum and has set the level of such Spectrum Fee to be charged on a national basis. As the Spectrum Fee is a “pass-through” fee payable to the Government of The Bahamas and only billed and collected by URCA, **URCA has no discretion to permit payment arrangements of this fee** by a Licensee. Any previously existing arrangements between a licensee and the Government of The Bahamas for spectrum fees (whether by way of waiver, reduction or payment plan) must be supported by a direction to URCA in writing from the current Minister. Any arrangements that are not supported by such Ministerial direction will not be applied to Spectrum Fees in the current period.
- 5.5 Technological advances have seen the emergence of Earth Stations in Motion (ESIM) around the world. The International Telecommunication Union (ITU) is in the process of developing a unified approach to these technologies to be employed by all treaty signatories. However, in order to facilitate the increasing applications that are being submitted to URCA for spectrum Licences to provide ESIM services, URCA has implemented a provisional Spectrum fee structure found at Table 11B, which is subject to change. Where URCA revises the spectrum fee for ESIM services, such revised spectrum fee will take effect in the subsequent year.
- 5.6 In order to assist Licensees in estimating their Spectrum Fee, URCA has included Table 12, a table of the bandwidth related spectrum fees, applied to common licensed allocations. The amounts indicated in Table 12 are indicative only, for ease of reference, and shall be superseded by the actual calculation of the relevant fee based on the formulae set out in Table 11B upon processing of an application for spectrum.

2x30 MHz	12,750	255	1275

1 year and Bandwidth (BW) of 1 MHz. There is a minimum fee of \$100.

Methodology to estimate the spectrum fee:

- i. Look up the corresponding fee/MHz value based on the relevant Frequency Band Factor (row) and Island Factor (column) for the assigned spectrum.
- ii. Multiply this value by the Bandwidth assigned in MHz (e.g. if 2x25 kHz is assigned then the Bandwidth is 0.05MHz) and the Time Factor (if Licence period is 1 calendar year, then $TF = 1$; if Licence period is less than 1 calendar year, the TF will be scaled pro-rata to Licence duration, rounded up to the nearest month, i.e. if the Licence period is 10 weeks, the fee will be calculated on the basis of 3 months, i.e. $TF = 0.25$)

Service and bandwidth assumed	Revised fee (National/New Providence)	Revised fee (Grand Bahama)	Revised fee (any other island)
Point to point links 11 GHz with bandwidth of:			
2x 50 kHz	100	100	100
2x3.5 MHz	297.50	100	100
2x14 MHz	1190	238	119
2x30 MHz	2550	510	255
